Measures Seminar!!**

Measures in Primary Mathematics – March 2019

An Inquiry Based Approach to Measures and STEM

This seminar provides participants with an engaging and stimulating Inquiry Based Learning (IBL) approach to Measures in Mathematics with meaningful connections to STEM. By experiencing practical activities that embody IBL, teacher participants will explore pupil misconceptions in Measures and respond by giving consideration to developing pupils' mathematical proficiencies. Participants will also explore innovative approaches to planning and assessing IBL lessons. Two teachers per school can apply to attend and substitute cover is available. Each teacher must apply individually online via www.pdst.ie/onlinebooking.
