

Technology in Teaching & Learning

As educators, passionate about enhancing learning and teaching with technology, we are charged with shaping tomorrow, today. The CESI community is at the nexus of this work in the ICT learning community.

The CESI conference is a calendar highlight for those who are interested in **integrating technology into teaching and learning**, and this year promises to uphold the high standard that has been set by previous CESI events.

Hands-on, Listen, Learn & Share

The conference features a mix of **presentations and hands-on workshops, high-profile keynote speakers**, and opportunities to engage with educators from all levels of the Irish education system.

Conversations around common interests, learning from each other, making connections with people we wouldn't otherwise meet – all are part of the wealth of this much anticipated annual event.
