

## Using the Digital Learning Framework to Embed Digital Technologies in Teaching, Learning and Assessment

*[Post-Primary Seminars]*

Following its success last year, the PDST is again offering this full-day seminar for the school principal and one other member of staff. Throughout the day, participants will explore the Digital Learning Framework (DLF) and examine how a school can use the DLF to create a fit-for-purpose Digital Learning Plan. Participants will also be provided with opportunities to explore good practice in embedding digital technologies in the classroom context and will gain awareness of the suite of supports PDST and PDST Technology in Education offer in this regard.

These seminars, aimed at post-primary schools who have not attended previously, are sub-covered and will be delivered in local education centres throughout the country. Participants are asked to bring a fully charged laptop.

Venue	Date	Time	Venue	Date	Time
Athlone Education Centre	03 /10/2019	9.30 - 3.30	Laois Education Centre	21 /10/2019	9.30 - 3.30
